EDUCATION

Edwardes College

Bachelor of Science in Computer Science (8th Semester)

Peshawar, Pakistan

Nov. 2021 – Present

PROJECTS

Case Cobra | *Next.js, Tailwind CSS, TypeScript, Prisma, PostgreSQL, Stripe*

- Built a full-stack custom phone case e-commerce platform where users can design and purchase personalized cases.
- Developed responsive front-end interfaces using Next.js and Tailwind CSS for a smooth, modern shopping experience.
- Integrated Stripe for secure online payment processing and order management.
- Implemented database models and APIs with Prisma and PostgreSQL to handle product data, orders, and user sessions.
- Utilized server-side rendering and optimized image handling for improved performance and SEO.

Hotel Management System | *Next.js, Tailwind CSS, Supa-base, Stripe*

- Developed a full-stack hotel management platform featuring a customer-facing landing page and an integrated admin and employee dashboard for efficient operations.
- Developed a full-stack hotel management platform featuring a customer-facing landing page and an integrated admin and employee dashboard for efficient operations.
- Implemented seamless online payment processing and invoicing through Stripe integration, ensuring a reliable and user-friendly checkout experience.
- Designed a responsive, modern UI using Tailwind CSS and Next.js for fast performance and optimal user experience across devices.
- Enabled real-time updates for room availability, staff management, and booking analytics through Supa-base's real-time capabilities.

E-Commerce Website *Next.js, Tailwind CSS*

- Designed and developed a responsive front-end UI for an e-commerce platform using Next.js and Tailwind CSS.
- Created modern, reusable components for product listings, shopping carts, and category pages with a clean and intuitive layout.
- Focused on design consistency, mobile responsiveness, and smooth navigation for an enhanced user experience.

Omnifood Website | *HTML, CSS, JavaScript*

- Developed a responsive landing page for an AI-based meal subscription service using modern HTML, CSS, and JavaScript.
- Implemented dynamic interactions like sticky navigation, smooth scrolling, and responsive mobile menus.
- Used CSS Grid and Flexbox for pixel-perfect layouts and strong visual hierarchy.
- Optimized for performance, accessibility, and cross-browser compatibility following modern web standards.

Forkify App | *JavaScript, HTML, CSS*

- Built a fully functional recipe application following the MVC architecture using modern ES6+ JavaScript.
- Integrated with the Forkify API to fetch and render recipes dynamically with search, pagination, and bookmarking features.
- Implemented local storage for persistent user data and added recipe upload functionality with form validation.
- Applied asynchronous programming (Promises, async/await) and modular code organization for scalability and maintainability.

EXPERIENCE

Co-curricular Activities

Edwardes College Peshawar

- Participated in university-level coding and web development workshops to strengthen front-end and full-stack development skills
- Contributed to small collaborative projects, focusing on clean code practices and user-centered design principles.
- Facilitated guest speaker sessions, including Breast Cancer Empowerment awareness programs
- Engaged in online developer communities and open-source resources to stay current with modern web development trends.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML, CSS

Frameworks/Libraries: Next.js, React.js, Tailwind CSS, ShadCN UI, Node.js

Databases: Supa-base, MongoDB

Developer Tools: Git, GitHub, VS Code, Figma, Postman, VS Code, Visual Studio
